PERMIT CONDITIONS

Permit Number P526P-18-00970

THIS PERMIT HAS BEEN APPROVED ELECTRONICALLY BY THE FOLLOWING PPQ HEADQUARTER OFFICIAL VIA EPERMITS.	DATE
Robert Pfannenstiel	03/21/2018

WARNING: Any alteration, forgery or unauthorized use of this Federal Form is subject to civil penalties of up to \$250,000 (7 U.S.C.s 7734(b)) or punishable by a fine of not more than \$10,000, or imprisonment of not more than 5 years, or both (18 U.S.C.s 1001)

AUTHORIZATIONS

This permit authorizes the interstate movement of the organisms listed under, "Regulated Article" from the Permit Holder Kandace Rich, Weedbusters Biocontrol LLC, 5607 Hillview Wy., Missoula, MT 59803, to CA and further authorizes the release of the organisms listed under, "Regulated Article" into the environment in CA.

OTHER CONDITIONS

1. AUTHORIZATIONS

This permit authorizes the interstate movement of the organisms listed under, "Regulated Article" from the Permit Holder Kandace Rich, Weedbusters Biocontrol LLC, 5607 Hillview Wy., Missoula, MT 59803, to CA and further authorizes the release of the organisms listed under, "Regulated Article" into the environment in CA.

This permit authorizes the interstate movement of only the organisms listed under "Regulated Article" above, and does not authorize other species.

All such organisms shipped must be directly from sources/localities within the Continental U.S. (excludes HI and territories of the United States); that is they must have been field collected from sites located within the continental U.S.

2. The permit holder must:

- (a) comply with all requirements and permit conditions;
- (b) maintain a valid permit so long as the regulated organisms are received, handled and released;
- (c) take appropriate precautions to release regulated organisms only at intended release sites;
- (d) maintain a residence in the United States
- (e) not assign or transfer this permit to other persons;
- (f) contain and destroy any/all regulated organisms not authorized under this permit but which are received in error, and;
- (g) notify the permit unit of such receipt of unauthorized organisms;
- (h) maintain an official permanent work assignment or affiliation reference the destination address on this permit;
- (i) notify the permit unit in advance of any change in the permit holder's work assignment or affiliation;
- (j) destroy or release all remaining live permitted organisms prior to departure or permit expiry unless other arrangements are confirmed by the permit unit prior to the permit holder's departure .

Notifications to the permit unit must be made via 866-524-5421 or pest.permits@aphis.usda.gov within one business day of the event triggering a notification.

WARNING: Any alteration, forgery or unauthorized use of this Federal Form is subject to civil penalties of up to \$250,000 (7 U.S.C.s 7734(b)) or punishable by a fine of not more than \$10,000, or imprisonment of not more than 5 years, or both (18 U.S.C.s 1001)

3. Without prior notice and during reasonable hours, authorized PPQ and/or State regulatory officials shall be allowed to inspect the conditions associated with the regulated organisms authorized under this permit.
4. Host plant parts are authorized to be included in the shipments of regulated organisms. Shipments shall be free of propagative host plant parts as much as practical, except that propagative host plant parts are authorized to be included in the shipments of regulated organisms when these organisms normally live within a propagative plant part.
5. All packages for transport must minimally consist of both inner (primary) and outer (secondary) packages securely sealed and escape-proof so that both are effective barriers to escape. More than one inner container may be placed in the secondary container. The inner package(s) shall contain all organisms and must be cushioned and sealed in such a way that it remains sealed during the shock, impact and pressure changes that may occur. The outer shipping container must be rigid and strong enough to withstand typical shipping conditions (dropping, stacking, impact from other freight, etc.) without opening.

Place a copy of this permit with all shipments (either inside or outside the package).

6. Identity of regulated articles intended for release shall be verified prior to packaging for shipment by a qualified or experienced individual familiar with the individual species.

After field collecting Regulated Articles authorized for interstate transport, the Permit holder must minimize the inclusion of extraneous plant parts, soil, or any other organisms, debris and other such items (= "contaminants") from containers for interstate transport. The permit holder must remove such contaminants using a reasonable and effective means which results in elimination or minimalizing of contaminants received in interstate shipment.

7. The permit holder and those designated by the permit holder are authorized to transport regulated organisms interstate to California by motor vehicle or commercial transportation.

8. DROP SHIPPING IS NOT AUTHORIZED UNDER THIS PERMIT

This permit does not authorize drop shipping. Drop shipping encompasses any shipments of regulated organisms made to customers from other producers or suppliers ("third parties") and do not originate from your address. Examples of such shipments include shipments by others filling orders on your behalf. Rather, each such third party shipper must have their own PPQ 526 permit specifically issued to them authorizing the interstate movement of the specific regulated organism to the relevant state destination. As a permit holder, your permit does not cover the activities of other shippers. Each permit holder remains responsible for determining if another entity possesses a valid 526 Plant Pest Permit for each regulated organism prior to requesting any regulated organisms be shipped on their behalf.

9. The permit holder shall document and retain records of all shipments, and make them available to USDA APHIS upon request.
